#### 4.5.2 Publication of Technical Magazines, Newsletters, etc. (5)

**Newsletter:** It showcases student participation in various activities, including GATE training programs, online certification and achievements. The newsletter provides an overview of final-year student placements and highlights the co-curricular and extracurricular accomplishments, creativity of notable students. The department newsletter, published once in every semester, features articles highlighting faculty contributions to research and academic achievements. It also covers department activities such as workshops, guest lectures, and conferences.

**Magazine:** The purpose of the magazine is to provide a platform for students and faculty members to share their technical and non-technical perspectives and showcase their skills, such as poetry, pencil sketches, and photography. The magazine serves as a bridge between academic learning and recent trends and developments, while also highlighting extracurricular activities to promote the holistic development of students. It is managed by the students, for the students, to help them achieve their goals. The sample newsletter and magazine are shown in Figure 4.1 to 4.5.

#### **4.5.3** Participation in Inter and Intra Institute Events by Students (10)

Students are encouraged to participate in various inter-institute events and showcase their technical competentices and talents. Students are motivated to publish their final project work in reputed international and national journals and conferences. With the knowledge gained from their curriculum, students attend events within and outside the state, leading to several prizes and awards. The department is committed to implementing Outcome-Based Education (OBE) practices, ensuring that students develop the necessary competencies. Additionally, students are encouraged to stay updated with recent trends through online courses on recognized e-learning platforms. The number of participants in various category of events is shown in Table 4.16, Table 4.17 shows Extra curriculur activities and achievements of students and the student publication details are presented in Table 4.18.

#### **Students Journal Publications**

Students are encouraged to publish their final-year project and their finding in reputed national and international journals. This allows them to share their innovative ideas and findings with the academic community, also enhances their research skills, networking with

premier institution and strengthens their academic profiles.

#### **Students Conference Publications**

Students are encouraged to present their research work at prestigious conferences. Such participation offers opportunities to gain exposure interact with experts, networking and receive valuable feedback to further refine their research skills.

#### **Students Online Course Certification**

Students are encouraged to enroll in online courses offered by recognized e-learning platforms such as NPTEL, Coursera, Ebox, GUVI, and Infosys SpringBoard. They also participate in ICT events like learnathons and skillathons. This engagement in self-learning

has resulted in students earning industry-recognized course certifications from these platforms. Notably, many students have secured NPTEL certifications with elite and silver, gold grades. The certifications obtained by students through various platforms are presented in Table 4.19

**Table 4.19 Students Online Course Certifications Completion**
